

STRAND

GUIDED SETUP

GUIDED SETUP

strand

As the leader in intuitive digital IP surveillance software, Strand is committed to creating innovative solutions to help organizations protect their assets. Strand's Enterprise solution for large scale applications and for smaller, distributed applications address the needs of surveillance customers, large and small, worldwide.

Strand's *EASY PATH*[™] Guided Setup

creates the Easy Path[™] to product integration by defining and compartmentalizing key set up features into a succinct set up guide. This abridged set up allows for the Strand's application functionality to be engaged in a step by step, easy to follow guide.

1

Guided Setup simplifies system setup by using default values for the most common Strand system configuration

2

Guided Setup is a step by step informational guide to assist with the administrative setup

3

Outlines base Strand administrative setup, including adding cameras and floorplans and applying user licenses to the system

4

Identifies key procedures necessary to implement Chronology storage

5

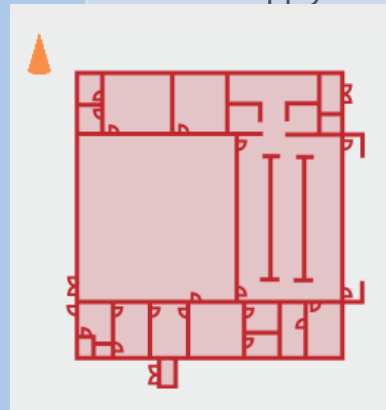

Novice, as well as expert, users are able to quickly and easily build a Strand system

6

Guided Setup significantly decreases deployment time and complexity

Guided Setup

- First Step
- Camera Passwords
- Maintain Floorplan
- Request User License
- Apply User License

Strand's innovative *EasyPath*[™] Guided Setup further simplifies Strand's IP video system integration process regardless of prior IP video training and deployment experience.
